3 books, purchased with fine money.

2 books, gift of Jennie B. Abbott.

1 pamphlet, gift of Napoleon Couturier.

Circulation of books for the year, 3,161.

Remarks

The Library has been open every Saturday, except one, during the year. It was closed on that day, because of death in the Librarian's family.

The Library has been well patronized. The circulation of books has been larger than last year. A large

number of children have taken books from the Library. not one of them has kept a book out over time.

Much credit is due our teacher, in the schools, for teaching the little folks to read so well. They not only read well, but they understand what they read and can tell you about it.

We have not added so many books as last year, but you will remember, that Miss Blanchard, the Concord Librarian, gave us 40 books, also Mrs. Josie Worthley procured 23 books from a private library for us, which made our number much larger than usual. We have some very good books this year, selected by librarians. We hope our patrons will enjoy them. We wish we had a larger appropriation for books, so that we could keep our patrons supplied with reading during the year.

We take this opportunity to thank all those who have given books, also Mr. Morgan for keeping the Library warm and all who have helped in any way. I assure you that the Librarian and the Trustees appreciate all that is done for the Library.

Respectfully submitted,

JENNIE B. ABBOTT,
Librarian.

Report of School Board

To the Citizens and Taxpayers of Hooksett :

We present for your consideration the reports of the school year from July 1, 1927 to July 1, 1928.

We have had ten rooms in session during this period, with the same teachers as last year. The attendance of pupils has been of good average.

The School Board has held regular meetings on the second Tuesday of each month with the uper Superintendent in No. 6. school building, when all bills were presented and examined.

Minor repairs were made in all buildings when deemed necessary.

In No. 6 Primary room new seats and desks were installed.

During the coming year it will be necessary to shingle the buildings in Hackett Hill district ; to replace chemical tank in basement of No. 6, and to make moderate repairs in all buildings needed for sanitation and the welfare of the children. We have asked for a sum to meet this expense in the budget.

It is the aim of the Board to maintain our schools on as high a scale of efficiency as possible and to that end we ask for your coöperation.

All transactions are recorded and financial reports made to State Board as required by law.

The books are open for your inspection at any time. The account of receipts and expenditures follows for your consideration.

Auditors' Report

HOOKSETT, N. H., July 12, 1928.

The undersigned have examined the books of the School District and find them correct and properly vouched for.

CHAS. W. AVERY,

Auditors.

REPORT OF Superintendent of Schools

To the School Board and Citizens:

I herewith submit my ninth annual report of the schools of Hooksett for the year ending June 30, 1928.

There were maintained during the year ten schools for a school-year of 36 weeks, with no change in the teaching force.

The total enrollment was 278 (134 boys 144 girls), with a daily average attendance of 94.26 per cent. There were thirty-five more pupils than last year. The schools were in session on an average of 34.78 half-days.

The school attendance was good. Most of the absences were caused by sickness. The cases of truancy were confined to a few families who gave as a reason their inability to provide proper clothing.

The School Laws of New Hampshire, Chap. 117:

“The school board of every district shall provide standard elementary schools for at least thirty-six weeks in each year at such places in the district as will best serve the interest of education and give all the pupils within the district as nearly equal advantages as are practicable.”

The school authorities have endeavored to so arrange the school calender that this law may be carried out and are constantly studying methods of improving

the work done in our schools and ways and means of eliminating waste in the expenditure of efforts and money.

Some rural schools are becoming so small that the cost per pupil is more than double the cost per pupil in the village schools and the educational advantages not as good.

The School Board now, as in times past, hesitates to close a small school and transport the pupils as long as there is reasonable prospect of an increase in the number of pupils large enough to warrant keeping the school open.

The rural school, with the great decrease in rural population, presents a serious problem. This decrease is taking place not only in New Hampshire but in every state in the Union.

Frank O. Lowden, former governor of Illinois, speaking before the National Educational Association at Washington on Rural Education said :

“The trek city-ward is already under way. If it shall go on as rapidly as it has for the last five years, the next generation will witness a farm population largely composed of the physically and mentally unfit.

“Educators have not been blind to this distressing contrast. In some sections of the country, consolidated country schools have been established. These schools have marked a vast improvement in the life of the community, for farmers are eager to give their children a good education as are those who live in the cities and the towns”

In some localities there is no boarding place for the teacher, located near the school house having the conveniences as a modern home. Teachers hesitate to accept a school unless they can have a good boarding

place with a well-heated and lighted room in which they may do their work undisturbed.

HEALTH

The school nurse, Miss Douillette, has done faithful and efficient work.

The health of the child in a large measure determines his regularity of attendance, his behavior and his ability to do his work.

Efficient supervision and instruction in matters of health should have an important place in school organization.

SCHOOL ACTIVITIES

The teachers were faithful and worked earnestly for the best interest of the pupils.

The noon and recess periods offer to both teacher and pupils an opportunity for pleasure and profit. Athletic games—baseball games, volley ball, basket ball and other games may be promoted and on stormy days educational games—arithmetic, geography, history, spelling, and cross-word puzzles may be enjoyed. The success of these supervised school periods depends upon the initiative and skill of the teacher.

The standardized test given during the year in all the fundamentals showed an improvement in the work done in these branches during the year.

Parents and citizens are invited to visit the schools frequently.

In conclusion, I express my appreciation for the co-operation and assistance given to me by the teachers, the School Board and the citizens.

Respectfully submitted,

HENRY S. ROBERTS.

Superintendent of Schools.
